CITY TOPICS.

Mr. McBurn of Winnipeg, took the Presbyterian work on Sunday.

Miss Kelly, of the Brandon School, has gone to take charge of a school at Chatham.

Over seven hundred persons left Toronto for Manitoba on Tuesday night. It is called a regiment in the army of immigration.

Mr. W. A. Moore, C.P.R. agent at McGregor, is in the city this week.

WE will receive \$400 worth of latest patterns in Wall Paper at Cliffe's bookstore next week. Corner 8th St and Rosser.

Mrs. E. H. HARRIS, of U. S. is, has lately returned from a visit to Ontario. She is thoroughly cured of any desire to live there.

Mr. Kelly, of Winnipeg, sang, "Palm Branches" in the Methodist church, on Sunday evening. His rich, full voice filled the church with melody.

Mr. Ferguson, of the Merchants' bank left on Tuesday for a two weeks' trip to Montreal. Mr. Wickson, manager of the Winnipeg branch, is acting in his place.

Mr. Kelly, of Winnipeg, arrived on Sunday evening's train to take part in the concert to be given by the choir of the Methodist church, Monday evening.

Mr. G. B. Noble has the contract of moving the Spruce building from Rosser avenue to Eighth street, some four blocks back. This is the last of three buildings which have been removed to make room for Nelson's block.

Mr. John Bradley arrived home from near Golden on Saturday last, where he has been getting out railroad ties. Mr. Bradley is enthusiastic in his statements as to the mining prospects in working. He returns in the course of a few weeks.

Amongst the many who have returned from visits to their former homes in the eastern provinces, and came back more than ever satisfied with Manitoba, are Mr. and Mrs. Dumbair of Brandon Hills. Nova Scotia has now no charms for either of them.

A COMPLIMENTARY SUPPER is to be tendered to Mr. F. W. Peters, C.P.R. station agent at this point, at the Central hotel to night. It is hoped that all the business men of the city will be present. Mr. Peters while a faithful servant of the company, has always been obliging, and done everything possible for the business men of the place.

As alarm of fire was sounded about 1 o'clock on Saturday last, the fire men turned out rapidly, but found that their services were not required. This difficulty was a chimney burning out at the Little Central hotel, the fire in which the men were prepared to throw water was less than two minutes.

The trustees of Harrow School District in the Municipality of Daly, have been fortunate in the selection of Mr. Milton Taylor of Watford, Ont., as their teacher for the present year. Mr. Taylor is an old, experienced, and highly successful teacher. He is expected to arrive from the east this present week.

A copy of the Shelburne (Ont.) Free Press has been received, containing the account of a supper and presentation given to Mr. W. McKee, who since left for Brandon. The presentation was a gold watch and chain. Mr. McKee replied in a suitable manner. He was evidently held in high esteem by the people of his late town.

While Manitoba has not yet absorbed hundreds of thousands of great settlers, there is one class of the great home for which she has to need—viz—"the tramp." Amongst the many people who have just arrived we regret to say a few of these most undesirable gentry have made their appearance. While farmers are in town every day looking for hired help some of these have taken the liberty, ostensibly to look up work, but really to sponge their victims, from the uneasy and hearted matrons of the country districts.

Mr. McLENNAN and his brother-in-law Mr. Thomas Davis, who some few years ago sold out their homestead on 18th St and went back to the United States, have returned to Manitoba, during the last few weeks completely cured of their Yankee mania. During their absence their original locations have nearly all been sold in value, and the two went owners refusing an offer of \$2,000 for their quarter section which he only paid \$12,000 for two years ago, and this without his having expended any cash in improvements. Facts like these speak louder than words as to the desirability of our province as the home for a steady industrious man.

The Winnipeg Sun says Brandon and Portage la Prairie are the two towns having recognized for 1889. Both Matthews has been elected president of the former club, which speaks volumes for its success. Brandonites are extremely enthusiastic in sporting matters, and if they go into the game at all, people may depend upon it that it will be up to such a standard that it will take the very best in the land to floor it. It is said that a number of vacant situations will be found about the time it is deemed necessary to increase the membership of the team. Brandon has a number of players from Portage la Prairie and Deseronto in the city.

The saw mill Mr. Christie is completing here will be one of the largest in the province, and in making choice of Brandon as a locality, Mr. Christie has certainly made a wise selection. The river affords him cheap transportation for his logs from the timber districts, and the shipping facilities now afforded him and shortly to be made available by most of the other mills in the province. The mill is fitted up with the latest and most approved machinery, and is well lighted out of the best in the province.

We are well awaiting daily the arrival of our insurance money. We can of course say but little until the time taken in the policy expires, but if it is not here then we will have our say, and we think it will be one that will not be the business of the companies. Already more than a dozen persons, insured in the companies the Wat was insured in, have informed us that if our money is not here promptly they will change their insurers. As we have said, the time allowed by law has expired, we have no reason to find any serious fault, but if it is not here then we will take our innings. Insurers pay their premiums regularly as a matter of simple protection granted everything is done, and that if accidents do occur they will have no trouble recovering. To anticipate it means to shake the active confidence of the public in the companies that group it.

It is the intention of the fromen to have a concert at an early date. They are practising for it now.

The Submarine Telegraph company of England has accepted the government's offer for the purchase of that company's cable.

Profiles and plans of the city are to be made for its efficient drainage. This has in contemplation the projection of waterworks.

MESSRS. BOOTH BROS. are building a greenhouse on Ninth street between Lorne and Louise avenues.

A few days since, Hon. Jas. A. Smart sold his thoroughbred bull, "General II," to Mr. Lambert for a handsome figure.

Owing to the probability that Mrs. Jarley's wax works will be repeated at an early date, the speech of that good lady has not been published as promised.

The sale of Hon. Mr. Smart's cattle yesterday was quite a success. The cattle brought good prices. Mr. C. S. Robbins bought a magnificent young bull.

THE C.P.R. employees in the yard here, are heavily overtaxed with labor, working all day and late at night, having little rest out of the twenty-four hours. A few extra men as for relief, would only be justice to the employees and company.

Mr. WALTER HUNTER of Daly claims to have one of the most, if not the most, prolific cows in the county, she having calved five times in the last year, and two calves within three years.

Mr. E. H. TAPPEL, of Winnipeg, Man., who has been visiting in Montreal, made a pleasant call on friends at Ailsa Craig this week. He left for home on Tuesday, accompanied by Mrs. George Stuart and her daughter who, going to Brandon—London Free Press.

THE Regina Presbyterian Congregation was represented at the special meeting held at Broadview to consider the call given to Rev. Mr. T. H. Taylor by Messrs. Bole, Mowat, Atkinson, McNeil, and Mayor McGibbon, and for the Brandon congregation, Rev. Mr. Curry and Messrs. Thompson, Murray and White.

Mrs. E. L. CHRISTIE, who has been in Winnipeg for some time past under treatment by the doctors there, is very much worse and is not expected to survive very long. Mr. Christie was telegraphed for on Thursday evening and chartered a locomotive and engine in order that he might reach his bedside as soon as possible.

It is commonly believed by the people of this province that the "black" population in many parts, is the only native element that we have. This however is not true as the writer has been assured by Mr. Bertram and other residents of the Brandon Hills district that there are both red and white to be found in the bluffs on the hills. The former named gentleman says that he has three varieties now growing in his garden the original bushes having been taken from the woods by himself.

Mr. McBEAN, travelling passenger agent of the C.P.R., was in the city yesterday. He reports that the passenger traffic is the largest he has ever seen. Not a day goes by without a train coming into the province this year. Tomorrow (Friday) the excursion party will be the largest of the season, and will be run in sections. They will principally settle in this Province. Brandon is well and favorably known. He is generally a rustic, and very agreeable. The new arrivals speak highly of him.

Mr. SANDISON informs us that a great many servant girls are anxious to leave their homes in the old country for Manitoba, but owing to the cost of transportation they cannot make the stars. He suggests that their passage money be forwarded to a reliable man in the old country who will pay their passage and start them on their journey. The amount can be kept out of their wages. Mr. Sandison can supply further information.

PERSONAL.

Mr. J. Keady returned from the east last Sunday.

—Mr. J. F. Kinley left yesterday for St. Paul.

—Hon. Jas. A. Smart, minister of public works, arrived from Winnipeg on Tuesday night last.

OAK LAKE.

The first annual meeting of the Landon Agricultural society was held at Thompson's hotel on the 26th ult., when the following officers were elected: Vice—J. B. Sutherland, T. Gasper, J. Duncan, W. Helliwell, J. Bond, J. R. Hoad, D. McNeil, R. H. Hall, H. C. Davis. The question of holding a spring show which was announced by the directors of the former society was discussed and agreed to by all, the place of holding the show was also brought up, and it was decided to hold it as formerly, on the show grounds at Oak Lake.

Seeding is well advanced, some of those who had their land all ready in the fall being finished with the wheat crop. Our Spring Show held here today under somewhat unfavorable weather, was more than a success. The stock shown being of a high class, put the judges in rather an awkward position. In the heavy draught horses, Mr. McNeil's "Cowden Lad," took first, Mr. W. Sprout's "Warrior O'Creo," giving the prize winner a hard run. Mr. Sprout's other horse, who took first prize at Virden last year, shows well for the class he stands in.

In the Agricultural class, young "Top Gallant," a three year old, came to the front, his opponent being J. C. Smith's "Clumber," taking second. Mr. Elder, who is the owner of "Top Gallant," will doubtless be to run in this district, and will doubtless meet with success. In the pure bred class, T. Gasper's "Scotsman" took first prize, and got a hard run by F. Frook's shire.

The cattle shown were of no mean order. W. Helliwell's bull, that carried the red tick, certainly deserved it so far as good breeding goes; but Mr. McNeil's bull, it is said, has by far the best points in the age class. T. R. Todd ran away with the prize, and was well worthy of the honors.

The Devil's Dozen.

Ottawa, March 23.—St. John Macdonald, who has been in the city after the vote this morning, met Mr. Sutherland, "Hello, Sutherland," said the Premier, "you belong to the devil's dozen."

The emigration season has opened well, with the departure of the Allan steamer, *Parsons* for Halifax to-day (Thursday). In addition to the 100 saloon passengers, the steamer will carry the majority of whom appear elsewhere, there will be about 800 or 900 emigrant passengers. These passengers are, we are glad to learn, of a very superior class, and the great majority of them are through to points in Manitoba and the Northwest territories. What a great boon to these early emigrants will be the short line of the Canadian Pacific Railway, which is now actually completed, though trains are not yet running. The long and tiresome journey over the intercolonial railway from Halifax is one that emigrants would willingly forego.

We learn that the forty or fifty families who are to proceed to the Canadian North west this season under the state aided scheme of the British Government, will leave Glasgow for Halifax in the Allan steamer *Gordon*, on April 3rd. Most of the members of this party having been selected last autumn by Messrs. McNeill and Graham, the Imperial and Canadian Emigration Companies, through some withdrawals have had to be filled up.

The vote on O'Brien's bill in the House of Commons was voted down by 188 to 13.

A robber entered the First National Bank at Denver, Col., yesterday, held up the officers and secured \$21,000.

Another change in officials here is to take place at once Mr. Bennett, who has many years held the position of immigration agent is to be removed to Winnipeg. During his residence Mr. B. made hosts of friends and but few if any enemies. As an official he has always been careful and has the deepest regard for the success of all parties coming under his charge, and as a citizen he has been all that the word good implies, while general regret is expressed at his departure. This is also the greatest pleasure knowing the change is promotion as he takes charge of the office of Winnipeg. It is in the connection a pleasure to know his successor is Mr. Brooker Qu'Appelle a gentleman previously fitted to succeed his worthy predecessor.

One of these events always indicative of the best wishes of men for their fellow being took place at both the restaurant being a presentation to Mr. Peters by his fellow employees and the C. P. R. at this point. We have neither time nor space to do the justice to this cause suffice it then to say there were about 20 present besides three representatives of the press, and letters of regret at inability to part from many more. After an excellent supper was over Mr. Green took the chair. The guest to his right and Mr. Green the speaker were made by all present. Mr. Green introduced the subject of concern for the evening, Mr. Caldwell, on behalf of the employees, made the presentation of a most magnificent silver tea service. Mr. Peters made a most touching reply, saying that the moral good feeling that always existed between the employees, during his seven years service, was a source of great satisfaction to him, and he would never forget the kindness and the hope, the same harmony would exist amongst all, after his departure. He said he would ever remember the kind words he had heard from the rail road people, and other residents of the city, and would endeavor to return it in the best way, and other assurances were given. He then, about one o'clock, when all returned he left taking leave of a most excellent officer.
